**MEET DR. MARK HORSTEMEYER** (PhD, Georgia Institute of Technology)

Mark became a follower of Jesus Christ just before his senior year in high school and, from that vantage point in his life, he has used nature as an inspiration for engineering design ever since. He has worked at prestigious institutions like Owens Corning Fiberglas, Sandia National Labs, Mississippi State University, and now Liberty University as Dean of the School of Engineering with over 30 years of experience working on nationally recognized projects like the Space Shuttle Columbia Accident Investigation Board, developing thermonuclear bombs, designing cars, and most recently football helmets. He is world expert on systems design, finite element analysis, structural mechanics, shock wave physics, multiscale modeling, and Integrated Computational Materials Engineering (ICME). Mark is entrepreneurial having started four companies in trying to put predictive science into engineering designs: Predictive Design Technologies, LLC; Advanced Technology Associates, LLC; Yobel Technologies, LLC, and Genesis Helmets. Mark is a fellow in the American Society of Mechanical Engineers, American Society of Metals, Society of Automotive Engineers, and the American Association for the

Advancement of Science. He also is a member of the National Academy of Engineering in the European Union. Mark has demonstrated strong leadership in creating and implementing multiscale modeling strategies into the research and academic process. He has published over 500 journal articles, conference papers, books, and technical reports with a citation impact h-factor of over 60 with over 15,000 total citations; he has been invited to give over 150 lectures throughout the world and has mentored over 200 graduate students and post-doctoral researchers. Mark is an executive board member of the Creation Research Society; has used modern modeling and simulation tools to analyze Noah's ark substantiating its stability, strength, and safety; developed the notion of Creationeering™; developed a physics and mathematical proof for God's existence; developed the framework for Simulating Genesis; has shown hard evidences for disproving molecules-to-man evolution; and is an avid Bible reader and enthusiast.

**MEET DR. JOHN BAUMGARDNER** (PhD, UCLA)

John has invested most of the past four decades investigating the physical processes that God used when He brought a horrendous judgment of the Flood on planet Earth (Genesis 6-8) that resurfaced the entire planet and destroyed all the Earth's land-dwelling, air-breathing life, apart from what He preserved on the ark. In 1986 John introduced the concept of catastrophic plate tectonics describing how the pre-Flood ocean floor, in conveyor-belt fashion, was rapidly recycled into the Earth's interior, splitting apart a pre-Flood supercontinent to yield the distribution of continents we observe today (2 Peter 3:6). John's PhD thesis research at UCLA in the department of geophysics and space physics included development of a 3D finite element model for investigating flow of rock inside planets like the Earth, software he later applied to study the Flood cataclysm. He has since shown that the giant tsunamis that the rapid plate tectonics initiated during the Flood generates have the ability to erode, transport, and deposit the more than a mile of fossil-bearing sediments that blanket the continents today. Between 1997 and 2005 John was a part of the

Radioisotopes and the Age of the Earth (RATE) research team that documented multiple independent lines of radioisotope evidence that the Earth is merely thousands, not billions, of years old. Beginning in 2005 he was part of a computational biology team that developed Mendel's Accountant, a software tool for modeling the process of genetic mutation and selection. This tool scientifically demonstrates that mutations inexorably lead to genetic decline and extinction, not to genetic improvement for all higher forms of life, thus falsifying molecules-to-man evolution as a working hypothesis. John spent most of his professional scientific career at Los Alamos National Laboratory in New Mexico. He is currently research professor emeritus in Liberty's School of Engineering.

## **A NOTE OF INVITATION FROM THE HOSTS**

Join us for an exciting and edifying experience walking in the footsteps of the Apostle Paul in Greece and Italy as we focus on God's miraculous actions during Creation and the Flood with two of today's leading researchers in these fields. We will also learn how the Apostle Paul addressed the scientific issues and context of the four cities in Greece that he visited (Athens, Corinth, Berea, and Thessaloniki).

Dr. Horstemeyer will present the notions of Creationeering™, Simulating Genesis, proofs of God's existence, modern reasons not to believe in molecules-to-man evolution, intelligent design, and the beautiful design of Noah's ark.

Dr. Baumgardner will share his scientific research pertaining to the reality of Noah's Flood, radioisotope, and other evidence that the Earth is only thousands of years old, the charade of neo-Darwinian theory, and how language falsifies the materialist worldview in a simple and obvious way. This he will do in the Greek and Italian setting where the gospel of Jesus penetrated a culture where human intellectualism and the arrogance it produces had long held multitudes captive. He will show how truth from God's Word, especially truth concerning Jesus and truth from the early chapters of Genesis, has the power to free captives who are lost and clueless in the deep darkness of the 21<sup>st</sup> century.

We are delighted to be joined by Charles Billingsley, an inspirational voice in Christian music, for special times of music and worship throughout this tour of Greece and Italy.

12.5. Deviations: Late return deviations are sometimes permitted from the original city of departure, for a minimum fee of \$175, if the class of service is still available at time of booking and if the carrier's fare rules permit the change. All deviations must be applied for by writing, faxing or emailing your request to Worship Convergence International. When a deviation is confirmed by the airline, passengers will be notified and invoiced for all charges incurred for their deviation. Each subsequent change is subject to an additional \$50 processing fee, plus airline fees once confirmed. Deviations are difficult, especially during high season, so requests must be made as early as possible. Clients who deviate must arrange for their own ground transportation to and from the airport.

### **13. FREQUENT FLYER PROGRAM MEMBERS**

If Client desires to use frequent flyer miles for free tickets, Client will need to book its flights directly with the airline and purchase a "Land Only" package from Worship Convergence International. Client should check with their preferred carrier to determine if Client qualifies for any mileage accrual.

### **14. LAND ONLY**

Any Client choosing the 'Land Only' package after their initial full-tour reservation has been made in writing, faxing or emailing, is subject to a \$100 change fee up to 60 days prior to departure. If Client chooses the 'Land Only' option must arrange for their own ground transportation to and from the airports and any mid-tour flights.

### **15. TOUR PRICES**

The services specified are based on a minimum of number of passengers. If this quota is not reached, the price of the tour will be increased proportionately. All tour prices quoted for transportation and land arrangements are based on rates (including foreign exchange rates) and taxes in effect at time of publication and are subject to change. Adjustments will be made if the exchange rate varies more than 3% at 120 days prior to departure. Confirmation of final air and land prices and taxes will be advised at that time.

### **16. TRAVEL INSURANCE**

### **17. PHOTOGRAPHS AND VIDEO IMAGES**

Client acknowledges that tour guides employed by WCI, as well as other private individuals not employed by WCI travelling with the tour, take photographs and videos from time to time during tours. In addition, WCI sometimes engages professional photographers and videographers to record tour performances for promotional purposes. Client agrees that WCI may use any photographs or images in which Client appears for WCI's promotional purposes in any type of media, including its company website, as long as no personally identifiable information, such as an individual traveler's name, address or telephone number, is published along with any likeness or images of such person. Client hereby waives any and all claims against WCI arising out of the publication of any photographs or videos taken during any tour by any other individual not employed by or otherwise affiliated with WCI.
